

Greetings from the New NSE EFMP Case Liaison

Hello, my name is Tricia Morris and I am relatively new to the Snohomish County, Washington area. My family relocated to the area in May of 2018. I am a military spouse of 8 years but have enjoyed the Navy lifestyle for over 10 years. The Navy has moved our family all over the world (Sicily, Spain, Virginia and Texas) but Washington has become our favorite.

Watching my husband's career grow has been an amazing experience. We met when he was a first class and as he has climbed the ranks, my duty as a spouse has also evolved. It started as becoming part of a mess to now as the triad support. I love that I can connect with military families and support their needs on a personal basis.

I found my love for families with special needs back in high school. I volunteered my study hall time to help assist in the Special Needs classroom. From there, I became a teacher's aide. My time spent in the school district was very valuable to me and its memories that I will have for a lifetime.

I took some time off to help family members with their Hospice care. That inspired me to get my Certified Nursing Assistant Certificate. With that certificate, I worked on the Memory Care Unit, Spinal Cord Unit, Assisting Living (Memory Care) and on a Hospice Unit. My heart is in helping families and supporting them in their time of need.

I joined the Fleet and Family Support Program back in February 2020 as a Customer Service/Administrative Support. In this role, I have had direct contact with service members and their families and have been able to provide information and referrals first hand. When the position of Exceptional Family Member became available, I could not have found a more perfect fit. It allows my passion for helping families and my role current role as Customer Service to be combined.

As Naval Station Everett's EFMP Case Liaison, I am looking forward to meeting and working with you very soon.
